Ammar Emad Obeid

Cybersecurity Engineer

Amman, Jordan | Phone: +962796555477 | Email: ammar.eobeid@gmail.com
LinkedIn: www.linkedin.com/in/ammar-obaid-406455262

Professional Summary

Enthusiastic and self-disciplined Cybersecurity Engineer with a strong academic foundation from Al-Zaytoonah University of Jordan (Expected Graduation: 2025). Experienced in ethical hacking, penetration testing, threat monitoring, incident response, and SOC operations. Adept at securing networks, analyzing security events, and implementing cybersecurity best practices. Passionate about continuous learning and contributing to organizational cybersecurity resilience.

Professional Knowledge & Skills

1. **Expertise in cybersecurity fundamentals and SOC operations.**
2. **Skilled in ethical hacking and penetration testing using Kali Linux and Metasploit.**
3. **Experience in developing cybersecurity tools and toolkits.**
4. **Knowledge of threat monitoring and incident response workflows.**
5. **Proficient in using SIEM platforms, including WAZUH.**
6. **Ability to analyze and visualize security events using dashboards.**
7. **Strong understanding of networking protocols, routing, and switching (CCNA certified).**
8. **Hands-on experience in vulnerability assessment and security auditing.**
9. **Developed a facial recognition system with Python, OpenCV, ASP.NET, and MySQL.**
10. **Ability to manage centralized logs for proactive threat detection.**
11. **Skilled in applying cybersecurity best practices in Windows and Linux environments.**
12. **Strong analytical thinking and problem-solving capabilities.**
13. **Experience in team collaboration and time management in high-pressure environments.**
14. **Attention to detail, self-discipline, and continuous learning mindset.**
15. **Ability to design and enforce secure access controls and browser-level restrictions.**

Education

Bachelor's Degree in Cybersecurity
Al-Zaytoonah University of Jordan, Amman, Jordan
2025 | Grade: 70 (Good)

Certifications

- **CCT (Cybersecurity Certified Technician) – Certified in cybersecurity fundamentals, SOC operations, and incident triage.**
- **CCNA (Cisco Certified Network Associate) – Certified in networking fundamentals, routing & switching, and basic network security.**

Professional Experience

Cybersecurity Trainee – Green Circle for Cybersecurity

- **Maintained and enforced cybersecurity standards to protect critical systems.**
- **Conducted vulnerability assessments and penetration testing to enhance system security.**

Cybersecurity Trainee – National Cybersecurity Center (NCSCJO) | Jul 7 – Aug 16, 2025

- **Participated in SOC operations, monitored and analyzed security events.**
- **Conducted hands-on incident response and threat detection in simulated environments.**

Projects

Facial Recognition System – Graduation Project | 06/2025

- **Developed using Python, OpenCV, ASP.NET, and MySQL.**
- **Focused on accurate real-time face identification and secure data integration.**

SOC Dashboard Development | 12/2025

- **Built a security monitoring dashboard to analyze logs and detect cyber threats.**
- **Assisted security teams in incident investigation and attack pattern analysis.**

Penetration Testing Toolkit (DAN-TOOLS) | 08/2025

- **Developed a toolkit of 100 cybersecurity tools with documentation and usage guides.**
- **Project available: GitHub Link**

Technical Skills

- **WAZUH, SIEM, Wireshark**
- **Kali Linux, Metasploit, Ethical Hacking, Penetration Testing**
- **Threat Monitoring, Incident Response, Vulnerability Assessment**
- **Python, ASP.NET, OpenCV, MySQL**

Languages

- **Arabic – Native**
- **English – Professional Working Proficiency**
